Subject: Re: cancelling August stratospheric intrusion workgroup call

As things stand today, Colorado does not plan to submit a demonstration for the April 22-23 stratospheric event. That could change depending on events over the coming months.

Hi Gail,
I have a quick question for State agencies and Federal partners, are any of you looking at submitting a demonstration for the April 22-23 event?

Thanks,
Cara

Hi All,

I don't have any agenda items, so I'm cancelling the SI workgroup call that was scheduled for August 15.   Please let me know if you have suggestions for topics for the next call scheduled for Sept 19th.   One possible topic – if states identify specific events that they plan to flag, we can review data for those events.

Thanks,

Gail
